	Application No.	Applicant(s)
Notice of Allowability	10/695,947	PARK ET AL.
	Examiner	Art Unit
	German Colón	2879
The MAILING DATE of this communication appears on the cover sheet with the correspondence address All claims being allowable, PROSECUTION ON THE MERITS IS (OR REMAINS) CLOSED in this application. If not included herewith (or previously mailed), a Notice of Allowance (PTOL-85) or other appropriate communication will be mailed in due course. THIS NOTICE OF ALLOWABILITY IS NOT A GRANT OF PATENT RIGHTS. This application is subject to withdrawal from issue at the initiative of the Office or upon petition by the applicant. See 37 CFR 1.313 and MPEP 1308. 1. This communication is responsive to 10/30/03.		
2. X The allowed claim(s) is/are 1-21.		
3. The drawings filed on 30 October 2003 are accepted by the Examiner.		
4.		
 Attachment(s) 1. ☑ Notice of References Cited (PTO-892) 2. ☐ Notice of Draftperson's Patent Drawing Review (PTO-948) 3. ☑ Information Disclosure Statements (PTO-1449 or PTO/SB/0 Paper No./Mail Date 3/8/05 4. ☐ Examiner's Comment Regarding Requirement for Deposit of Biological Material 	6. ☐ Interview Sum Paper No./Ma 98), 7. ☐ Examiner's An	nil Date

Application/Control Number: 10/695,947

Art Unit: 2879

DETAILED ACTION

Allowable Subject Matter

1. Claims 1-21 are allowed.

2. The following is an examiner's statement of reasons for allowance:

The Examiner notes that the Prior Art of Record discloses an OLED comprising: first and second substrates bonded together; a driving element on an inner surface of the first substrate; a connecting electrode contacting the driving element; a first electrode, an organic EL layer and a second electrode disposed on an inner surface of the second substrate, wherein the second electrode contacts said connecting electrode (see references cited in the Prior Art of Record section).

However, the references of the Prior Art of Record fail to teach or suggest the combination of the limitations as set forth in independent claims 1 and 13, and specially comprising the limitations of:

a driving element disposed on a central portion of a pixel on a first substrate;

first and second connection electrodes contacting the driving element;

a first electrode, an organic EL layer and a second electrode disposed on an inner surface of the *second* substrate;

wherein the second electrode contacts the first and second connection electrodes.

Regarding claims 2-12 and 14-21, the claims are allowable for their dependency status from claims 1 and 13, respectively.

Art Unit: 2879

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Prior Art or Record

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure:

Nishio et al. (US 6,046,547), Kuribayashi et al. (US 6,175,345), Park et al. (US 6,744,197), Sundahl (US 6,777,871), Kim et al. (US 6,911,670), Han et al. (US 2003/0127972), and Robbie et al. (US 2004/0207315) disclose EL devices comprising a first substrate having driving means, an opposing substrate having first and second electrodes and an EL layer disposed between the electrodes; further comprising connecting electrodes connecting the second electrode to the driving means.

Yokoyama (US 6,429,599) discloses an EL device having a TFT in substantially a central region of a pixel.

Contact Information

Any inquiry concerning this communication or earlier communications from the examiner should be directed to German Colón whose telephone number is 571-272-2451. The examiner can normally be reached on Monday thru Thursday, from 8:30 to 6:00.

Application/Control Number: 10/695,947

Art Unit: 2879

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Nimesh Patel can be reached on 571-272-2457. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
